

PAST LIFE REGRESSION SEMINAR

NY HYPNOSIS INSTITUTE LLC

Did You Plan This Life On Purpose?

A unique and entertaining presentation exploring the life-altering possibilities of using past-life regression to solve the (seemingly) unsolvable—in the here and now. This interactive 2 hour seminar includes a **Group Past Life Regression**

Join Eli Biliuos, the founder of the N.Y. Hypnosis Institute LLC, for a thought provoking discussion and experience. Eli is a Master Hypnosis Trainer, a Neural Linguistic Programming and EFT Practitioner who specializes in Past Life and Life in Between Lives Regression.

Why do you like or dislike someone at first glance?
How can you explain phenomenon like Déjà Vu?
What is the logic behind re-incarnation?
Why don't you remember former lives?
What about destiny and free will?
How can Past Life Therapy improve your relationships with yourself? Spouse? Parents? Children?

Audiences will leave with a new set of clues to:

Why an addiction, anxiety, phobia or other life-limiting problem just won't go away
Why insight into a situation doesn't necessarily change it
Why you probably had the experience of something happening for the first time that somehow seems haunting and familiar
Why weight problems and sexual dysfunction often linger despite all your efforts
Why some relationships don't heal

Audience Members Can Participate in a Group Past Life Regression
